

Appl. No. 10/709,464
Amdt. dated October 17, 2005
Reply to Office action of September 22, 2005

REMARKS/ARGUMENTS

1. Objection to the drawings:

5 The drawings are objected to because they do not include the following
reference signs mentioned in the description: 11, 16, 18, in Fig.3.

Response:

10 Although Fig.3 does not contain the reference signs 11, 16, and 18 described in
paragraph 19 of the specification, Figs. 1 and 2 do contain these reference signs. The
drawing depicted in Fig.3 is meant to be viewed in conjunction with Fig.1 and Fig.2,
and the applicant believes that the figures and the related descriptions in the
specification enable one skilled in the art to understand the relative positions of the
projector 10, the indoor space 13, the screen 11, the transmitter 16, and receiver 18.
Acceptance of the drawings is therefore respectfully requested.

15

2. Objection to claims 1-24:

Claims 1-24 are objected to due to informalities, for reasons of record.

Response:

20 Claims 1-3, 5-10, 12-14, 16-20, and 22-24 have all been amended to overcome
the objections to the claims.

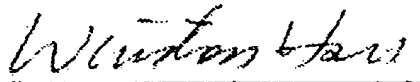

25 The phrase "detecting distances from the projector to the front side
of the projector" has been amended to become "detecting distances from the
projector to the front side of the indoor space the projector is to project
within". No new matter is added through these amendments, and acceptance of
claims 1-24 is respectfully requested.
